

GALACTIC SOUL

Being in the state of Soul awareness allows me to take a deeper look at my life from the understanding that everything, including the life span, is temporary—it could last 50 years or a 1000 years—still only a fragment in the overall divine picture.

This allows me to prioritize what is important! Am I living every moment in a state of transcendental gratitude to myself, my own soul and to God, the teacher and the teachings?

Am I truly ready to live my life as a miracle and wonderment and let go of all imaginary super-imposed control guided by the ego?

If the answer is Yes, then
I AM FREE AND LIBERATED RIGHT NOW.

The answer is yes. That is surrender. That is the vision of my soul. That is freedom.

THAT IS THE PURPOSE FOR BEING.

With Love and Respect,
Aros Crystos
