Aros Crystos is a Walk-In: a galactic emissary and star being who came to this planet through a soul-exchange. An award-winning vocalist, author, soul coach, energetic frequency healer, and dolphin emissary, Aros spent many years interacting with wild dolphins in Hawaii where the galactic energy he came in with as a “walk-in” was activated. In this workshop, we will explore one of the first messages from the dolphins, “Where there is true love, shapes and forms disappear.” We will dive deep into the awareness of our consciousness, the real purpose of the dolphins, and their connection to the human race. He will share his amazing experiences and demonstrate the unique energetic gift he received from the dolphins. www.aroscrystos.com

Experience your conscious self beyond space and time: It is natural for our bodies to react to energy, light and sound. Aros' galactic energetic gift activated by the dolphins activates your DNA hyper-communication system, where you experience your miraculous conscious self. Junk DNA is NOT junk! It IS your inter-dimensional holographic communication system and the database that connects you with the source of your non-physical self beyond this dimension and time explaining the mysterious and fabulous abilities of intuition, clairvoyance, miraculous healing, astral projection, telepathy, past life experiences, transcendent spiritual awakenings and more. DNA activation bypasses your ego and mind, awakening your witness consciousness and reconnecting you with your divine conscious self.

With great respect and love, Aros Crystos.”
